

Log On to the new TnT Partners website

"Bridging the gap between Technology & Finance" is the new tagline here at TnT Partners. It was developed with our Billing Service in mind where both IT/Telecom and Finance departments are thrilled with:

□

- monthly invoices audited for big savings
- payments made accurately and on-time
- secure access to web-based management reports for real time spend, dispute, credit and accrual dollars for each invoice, vendor and/or GL code.

With that in mind we have launched our new website www.TnTPartners.com featuring a water blue color scheme and testimonial quotes from various clients. We thank all of you for the kind words and truly hope to continue to be your "bridge over troubled waters..."

TeleBase™ v.3.03 Released

This version includes a new Tax Summary on the Billing Analysis screen. Taxes from the last invoice processed are compared to the current invoice with the difference in percent (%) calculated. Analysts now are quickly alerted to unexpected tax changes at the Local, State and Federal levels.

V3.03 also includes report enhancements. By using the menu driven search criteria you can focus in on specific output very easily. Management reports include:

(GL Spend)

(Claims Tracking)

- G/L Trending** - twelve-month history of spend
- Vendor Scorecard** - high-level view of vendor YTD
- Inventory** (various) - Total, Data Network, and Wireless inventories
- Wireless Analysis** - generated using monthly carrier data feeds
- Wireless Vendor Trending** - overall spend by vendor
- Provisioning** - open and closed order information
- Invoice Summary & Detail** - current invoice - comprehensive and distributed
- Vendor Summary & Detail** - vendor spend by month - overall and to station level
- Claims Tracking** - all claims by vendor - open and closed
- Accruals** - tracks invoices not received and estimated amounts
- Chargeback** - spend by hierarchy, down to station level
- G/L Spend** - vendor spend by G/L

TnT Partners Welcomes Two New Clients... and undergoes expansion

The Welcome mat is being proudly displayed at our newly enlarged home office in Newtown, CT.

This summer saw the building project completed with space added to accommodate 15 additional analysts - some that have already started and some in the interview process. All this activity is necessary as we continue to grow our client base. The latest additions feature a global strategy and technology consulting firm and a leading Wall Street hedge fund group.

We thank all our loyal long term clients that acted as references and look forward to servicing our new ones.

Hope you enjoyed your summer!
